

ROUND BOTTIE LABELING MACHINE

DESCRIPTION

NP-RL Vertical round bottle labeling machine is a self adhesive labeling machine design for round bottle labeling with single label pasting.

It is original technology from Italy, high speed labeling and stable. The whole machine frame is adapt 304 stainless steel, servo motor driven the labeling head, PLC control, frequency speed adjust. The labeler can equip with a date coder for printing date, LOT number, also bar code. The detection function is as an option, such as automatically rejection for missing label, automatic warning on missing label, automatic rejection for no date printing etc.

Features:

1. Touch screen and PLC control
2. Low or missing label detect.
4. Synchronized speed selection
5. Servo motor drive for high accuracy and high speed
6. No bottle no labeling.

SPECIFICATION

1.	Machine Size	2000(L)×1250(W)×1650(H)mm
2.	Output Speed	50-150pcs/min depends on label and bottle size Height
3.	Label Object	30-200mm
4.	Bottle diameter	20-86mm
5.	Label Height	15-150mm
6.	Label Length	25-200mm
7.	Accuracy	±1mm
8.	Roll inside diameter	76mm
9.	Roll Outside diameter	330mm
10.	Power Supply	220V 0.8KW 50/60HZ
